

SHUR-FLEX® Driveable and Surface Mount Delineators

Delineator systems by SHUR-TITE® are uniquely designed to withstand substantial impact from motorists without breaking. By using a flexible joint between the post-base and post, impact is absorbed into the system, while the post self-corrects to stand back upright. Delineators are durable, resulting in limited maintenance and fewer change-outs to save you time and money.

DRIVEABLE

SURFACE MOUNT

SHUR-FLEX® Driveable Delineator

FEATURES AND BENEFITS

- durable system results in limited maintenance and fewer change-outs to save time and money
- designed for multiple hits and omni-directional impact
- simple, non-mechanical self-righting system
- uses the proven SHUR-FLEX® Square to Round Insert
- easy installation and post replacement—lessens the exposure of traffic and other dangerous situations to field personnel
