

Signage and traffic control devices for private properties

Since 1947, Zumar Industries has remained a proud manufacturer and distributor of high-quality signs and traffic-safety products. We have experienced sales teams at each of our locations in Arizona, California, and Washington, sitting at the ready to serve you. Together, we can get you the right products when you need them.

PRIVATE PROPERTIES

When it comes to signs and traffic safety, private properties have varying needs. There are many regulations and stylistic preferences to consider—and Zumar can help.

For example, your property may fall under one of the following categories:

- residential developments
- apartment complexes
- condominiums
- shopping centers
- office parks
- entertainment centers
- hotels
- hospitals
- universities
- sports facilities

STANDARDS AND STYLE

If the public travels on property you own or manage, Zumar can help ensure your traffic signs, pavement markings, and other traffic control devices follow the legal standards of the *Manual on Uniform Traffic Control Devices (MUTCD)* and Americans with Disabilities Act (ADA). Our expertise also extends into stylizing other signs—using logos, sign shapes, and other techniques—to give your community a custom look.
